Objective	Motivated and detail-oriented software developer with a strong foundation in Java, Spring Boot, MySQL, and front-end technologies such as React and Java FX. Skilled in implementing MVC architecture and REST APIs to deliver robust, user-friendly applications. Seeking an internship opportunity to apply my full-stack development skills and contribute to innovative software solutions while gaining hands-on industry experience.
Technical Skills	<div><div>Java</div><div>Java FX</div><div>MySQL</div><div>React</div><div>Spring Boot</div><div>Git/GitHub</div><div>MVC Architecture</div><div>Rest API</div><div>HTML</div><div>CSS</div><div>Java Script</div></div>
Soft Skills	<ul style="list-style-type: none">▪ Problem-solving and analytical thinking▪ Strong teamwork and collaboration skills▪ Adaptability and eagerness to learn new technologies▪ Time management and ability to meet deadlines▪ Clear and effective communication▪ Attention to detail and quality assurance
Experience	<div><div>Central Engineering Services Pvt. Ltd Trainee Technical Officer (Civil Engineering)</div><div>April 2022 – October 2022</div></div> <ul style="list-style-type: none">▪ Utilized analytical and problem-solving skills in project coordination and data management.▪ Gained experience with software tools for design and documentation, enhancing technical proficiency.▪ Adapted to cross-functional tasks, demonstrating versatility and attention to detail.
Education	<ul style="list-style-type: none">▪ Bachelor of Information Technology (External) – University of Moratuwa Reading▪ Comprehensive Master Java Developer Diploma (CMJD) – IJSE 2024▪ National Diploma for Industrial Technology(Civil Engineering) – College of Technology, Rathmalana 2020- 2023

Projects

▪ **Student Management System**

Technologies: Java, Java Swing, MySQL

- Developed a desktop application to manage student data for an educational institution using Java, Java Swing, and MySQL.
- Implemented key features including student registration, class management, student enrollment, and payment details management.
- Implemented key features including student registration, class management, student enrollment, and payment details management.

▪ **Point of Sale (POS) System (Backend and Frontend Development)**

Technologies: Spring Boot, MySQL, JWT, Spring Security, Swagger, Tailwind CSS, TypeScript

- Developed the backend of a POS system using Spring Boot and MySQL to manage sales transactions, inventory, and stock.
- Implemented user authentication using JWT and Spring Security for secure access control.
- Designed and built a RESTful API for managing items, item categories, and stock operations.
- Documented the API with Swagger to ensure clarity and easy integration.
- Contributed to frontend development using HTML, CSS (Tailwind), and TypeScript for a responsive and user-friendly interface.
